Education

M. Sc. Tech. in Software Engineering

LUT University

2021-Present

Core Tech Stack

Backend:

- TypeScript
- Node.js
- Express
- Rest APIs

Frontend:

- React
- JavaScript
- Tailwind CSS
- Responsive Design

Cloud & DevOps:

- AWS (ECS, S3)
- Docker
- Git & Github
- CI/CD Pipelines

Databases:

- MongoDB Atlas (NoSQL)
- SQL (Academic basis)

Professional summary

Driven and highly autonomous Software Engineering student with proven experience in designing, building, and deploying enterprise-level cloud-native platforms from scratch. Expert in aligning deep technical execution (TypeScript, Node.js, React) with robust cloud environments and automated CI/CD pipelines in AWS. Possesses a unique blend of end-to-end technical autonomy, strong leadership background from the military and student union boards, and experience in international stakeholder collaboration.

Experience

Full-Stack Developer (Sole Developer) | Industrial Service Portal

5/2025 - Present

Designed and developed a comprehensive, production-ready industrial operations and maintenance management system from scratch. Held end-to-end responsibility for the technical architecture, database engineering, and deployment pipeline.

- **Architecture & Backend:** Built a scalable backend hierarchy and high-performance REST APIs using TypeScript and Node.js.
- **Frontend & UI/UX:** Developed an intuitive, component-based user interface using React and Tailwind CSS to optimize remote management workflows.
- **Cloud & DevOps:** Containerized the system via Docker and deployed it to AWS using Git-driven CI/CD pipelines.
- **Academic Focus:** Currently authoring a Bachelor's Thesis at LUT University analyzing the architecture and engineering choices of this platform.
- **Security & Best Practices:** Implemented secure session management and architectural patterns to protect user data and ensure system integrity.

B2C Sales Representative | Enia Oy / Elisa Corporation

8/2024 - 1/2025

Worked in direct target-driven consumer sales representing one of Finland's largest telecom corporations.

- **Performance Excellence:** Consistently ranked in the top 10% of office sales representatives monthly, achieving top-tier results almost immediately after starting.
- Developed exceptional resilience, interpersonal negotiation skills, and a target-driven mindset under tight monthly metrics.

Executive Board Member (International Affairs) | Student Union of LUT

1/2023 - 12/2023

Managed international student affairs and cross-campus relations, acting as a key link between diverse international stakeholders.

- Represented LUT University as a Student Board Representative in the European EULIST University Alliance.
- Managed daily communications, advocacy, and multi-campus initiatives with local authorities and national unions.
- Co-organized large-scale cultural events requiring meticulous resource allocation and agile crisis management under pressure.

Infantry Platoon Leader (Second lieutenant) | Finnish Defence Forces

7/2018 - 6/2019

Completed the nation's premier leadership training program (Reserve Officer School, RUK), focusing on operational planning and crisis management.

- Led, trained, and took full operational responsibility for a reinforcement platoon of over 30 subordinates in high-pressure tactical environments.
